

*Contours*  
Timber Lining Boards

Isthmus in Tasmanian Oak

# Elevate your Space with Contours

Contours timber lining boards add natural warmth, texture and depth to any space, offering a refined and versatile design solution for walls, ceilings and cabinetry. Designed to elevate interiors with ease, Contours brings architectural detail to life in both residential and commercial projects.

Strata in Primed FJ Pine

Cirque in Engineered American Oak

Riverine in Primed Pine

**Product features:**

- Stylish, sculpted profiles to suit modern and classic interiors
- Made from sustainably sourced timber
- Fast and easy installation
- Ready to finish with clear, stained or painted coatings
- Perfect for feature walls, ceilings, cabinetry and more
- Suitable for use in wet areas, including bathrooms, laundries, and kitchens\*

\*Installation in wet areas must comply with specified requirements according to AS 3740:2021 and NCC Vol 1F2P2 or Vol 2 S26C5.

Riverine in Engineered American Oak

# Durable *Timber*

Easycraft Contours are crafted from durable, solid timber and are available in a variety of species, making it easy to choose the perfect option to suit your space.

## Engineered American Oak Veneer

A stunning North American hardwood, known for its hardwearing and versatile properties, this species' warm tone provides an inviting neutral backdrop.

Pinnacle profile shown

## Tasmanian Oak

Tasmanian Oak is a beautiful Australian hardwood and forms the core of the Contours range. Select Grade offers a clean, uniform finish with minimal marks, while Feature Grade highlights the timber's natural characteristics such as knots and gum veins for a more expressive, rustic look.

Strata profile shown

## Clear Pine

A light softwood that is typically a cream to light-straw in colour, ideal for staining, waxing and colour-washing. This knot-free product is significantly easier to work with compared to knotty pine.

Cirque profile shown

## Primed FJ Pine

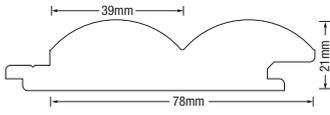

Ready to paint, this product is pre-coated with two coats of a specially developed water-based primer in a matte white finish. It is manufactured from finger-jointed Clear Pine which provides enhanced strength and stability.
